

High-temperature components for Rankine-Cycle-based waste heat recovery systems on combustion engines.

Dr. ir. Jean-Paul Janssens,
BOSAL Emission Control Systems,
Lummen, Belgium, EU

John Miles,
BOSAL International North America,
Ypsilanti, MI, USA

- Exhaust manufacturer with more than 10 years of experience in RC-evaporators up to field tests
- Validated design tools for RC-ORC
- Accurate and dynamic test & simulation capabilities
- Modular concept for multiple applications
- Certification up to 60 bar for European PED and German AD2000
- Find more at poster P-11
